

Demystifying Digital Transformation 2.0

 **Wednesday October 23, 2024**  **Hammond, Indiana**

Digital transformation, Internet of Things (IoT) and the modern technology landscape.

Join industry experts, advisors and fellow manufacturing organizations as we discuss the importance of a technology roadmap, financially feasible starting points for small and medium-sized manufacturers plus current examples of companies driving unprecedented efficiency, productivity and connectivity.

EVENT DETAILS

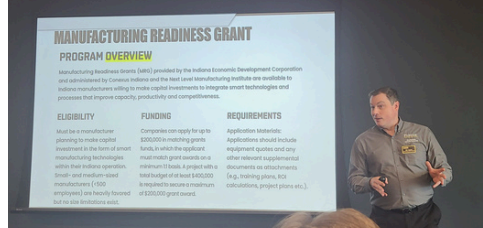

DATE & TIME: Wednesday, October 23, 2024 from 3:30 PM - 6:00 PM

LOCATION: Purdue Northwest Commercialization & Manufacturing Excellence Center
7150 Indianapolis Blvd, Hammond, IN 46324

This FREE event is open to all Indiana-based manufacturers and entrepreneurs regardless of their size and capabilities!

Depending on your organization, the right attendees may be decision makers of factory floor production, company leadership, plant/operations managers, or technology specialists.

BENEFITS

Attendees will enjoy presentations by industry experts and thought leaders with ample time for networking, discussions, and Q&A. The event also consists of:

- Insight on technology implementation from industry leaders
- Learn about advanced manufacturing technology solutions and workforce development training from Purdue Manufacturing Extension Partnership (MEP)
- Free qualification assessment for technology readiness
- Connections to suppliers to aid in your search for the right solution
- And more!
