

Demystifying Digital Transformation 2.0

 Wednesday November 6, 2024

 Kokomo, Indiana

Digital transformation, Internet of Things (IoT) and the modern technology landscape.

Join industry experts, advisors and fellow manufacturing organizations as we discuss the importance of a technology roadmap, financially feasible starting points for small and medium-sized manufacturers plus current examples of companies driving unprecedented efficiency, productivity and connectivity.

EVENT DETAILS

DATE & TIME: Wednesday November 6, 2024 from 3:30 PM - 6:00 PM

LOCATION: Ivy Tech Community College Kokomo Campus - Hingst Hall
1815 E Morgan Street, Kokomo, IN 46901

This FREE event is open to all Indiana-based manufacturers and entrepreneurs regardless of their size and capabilities!

Depending on your organization, the right attendees may be decision makers of factory floor production, company leadership, plant/operations managers, or technology specialists.

BENEFITS

Attendees will enjoy presentations by industry experts and thought leaders with ample time for networking, discussions, and Q&A. The event also consists of:

- Insight on technology implementation from industry leaders
- Learn about advanced manufacturing technology solutions and workforce development training from Purdue Manufacturing Extension Partnership (MEP)
- Free qualification assessment for technology readiness
- Connections to suppliers to aid in your search for the right solution
- And more!

AGENDA

3:30 PM - 3:35 PM Welcome to Ivy Tech - *Ethan Heicher, Ivy Tech Kokomo Chancellor*

3:35 PM - 3:45 PM Indiana IoT Lab - *David Bolling, Executive Director*

3:45 PM - 3:55 PM Energy Systems Network (Energy Insights Grant)
